APPOINT DELEGATES .- It is highly important to the success of the Democracy of the Eighth Congressional District that our people meet at the Court room next Monday, and select delegates to attend the con-- vention which is to be held at some convenient point in the district for the purpose of selecting a Democratic elector and nominating a candidate for Congress. At the earnest request of many of our best citizens this call is made, and it is to be hoped that the county meeting will be well attended. There is much work to be done, ere the foul chains which radicalism has thrown about needed at the County Convention. Let us all work together, willingly and with hope. It is getting too bot for soft shells to thrive, and it's very likely that the "don't cares" of to-day will be bobbing around lost places in less than forty moons. York who held overdue Tennesse bonds had attached all the funds sent by the State authorities and railroad companies and provided by the Board of Finance to pay the July interest on the State debt. The amount of our b nds which fell due on the 7th of May is \$1,000,000, of which but a very small proportion has been taken up by the sulstitution of new bonds. The Legislature provided for the issue of new bonds with which to take up those falling due in May but some of the parties holding the May bonds refused to receive the new and dereciated bonds in exchange for those for which they expected to receive dollar for ollar. No other effort has been made to settle with the holders of these overque bonds, and they have attached the money which has been raised, to pay the interest on the State debt falling due on the 1st of July. This money was raised by what tax collections could be made, by the sale of bonds at sixly cants which were authorized to be issued to take up those due in May, and by borrowing and hypothecating these bonds as security. This news created no little consternation in official circles yesterday, and a great deal of excitement among bankers and citizens generally, and especially the latter, who from the positive assertions of the Governor and his cohoes, were led to believe that our financial matters were being managed with consummate skill. The Governor published the following in his paper, the Knoxville Whig, of the 24th instant:

er, the Knoxville Whig, of the 24th instant : TENNESSEE STATE BONDS -- Our State bonds are selling at seventy-five cents in New York, and they are steadily advancing. This is wonderful when we consider the war made upon the State credit, both at home and abroad! Rebel papers and Rebel stump orators, as well as pretended friends, have alike predicted our failure to meet the July interest on the State debt. Despite all SENIOR EDITOR.

This boast of the Governor was intended to inspire confidence in the financial arrangements of his administration. The money had been provided to meet the July interest, but no arrangement had been made with the heavy oreditors of the State, and they seem unwilling to indulge the Governor in his oxtravagant boasting, and have commenced cking up whatever funds they can find belonging to the State. As soon as this information reached here yesterday dispatches were sent off to stop every dollar possible that had not already reached New York.

The result of this movement on the part of the creditors of the State has been a heavy unless the attachments under which that already provided is held can be vacated, and the money applied to the purpose for which travagant State government we have ever had, instead of paying off the indebtedness of the State.
